SUMMARY

Full-Stack Developer with 3+ years architecting scalable SaaS platforms and AI solutions. Founded CodeSaas: delivered products for 20+ startups, scaled to 1M+ users, generated \$200K+ revenue. Expert in cloud-native development, DevOps automation, and cross-functional team leadership.

SKILLS

EXPERIENCE

Full-Stack Developer — SparkAi

Oct 2025 - Present

- Led end-to-end website revamp for Creatiz.ai, migrating the frontend from Material-UI to Tailwind CSS with shadcn/ui, rebuilding 90% of the application, improving UI consistency, performance, and maintainability, and successfully launching the redesigned production website.
- Developed and integrated multiple new product features across the frontend and backend using modern full-stack technologies, collaborating closely with product and AI teams to deliver scalable, user-focused functionality.
- Contributed to backend model optimization and reliability, improving performance through code refactoring and optimization, and implemented comprehensive unit tests to enhance system stability, code quality, and deployment confidence.

Full-Stack Developer — Workwalla (React Native)

Mar 2025 - Present

- Developing a mobile application using React Native, Node.js, and Redis to deliver robust messaging and payment functionality.
- Designed and standardized reusable UI component library, accelerating feature release cycles and improving interface consistency.
- Built an all-in-one app targeting workers, contractors and clients with multiple features built from scratch.
- Added wallet, refer and earn, proper finance management along with live tracking and multiple job levels.

Full-Stack Developer (Part-Time) — TherapyBuddy

Sep 2024 - Nov 2024

- Enhanced pre-launch health platform by troubleshooting production bugs, crafting modular components, and streamlining back-end API performance.
- Built a platform connecting the therapist and clients in their particular area with multiple advanced features.

Full-Stack Developer — Pesu Venture Labs

Feb 2024 - July 2024

- Elevated 4 SaaS platforms by facilitating 10x speed boosts through caching and query optimization methods.
- Implemented LLM-powered automation in Kubernetes and Docker, driving a 70% reduction in manual workflows.
- Delivered flawless UI execution of 10+ Figma designs and ensured accessibility standards.

Full-Stack Developer Intern — Nyahari (Food-Tech)

Oct 2023 - Jan 2024

- Developed a marketplace app that empowers 100+ home chefs to monetize their skills, optimize logistics, and save 25% on delivery costs.
- Attracted more than 100 initial customers through market analysis and targeted acquisition campaigns; processed 15K+ transactions during the pilot.

Founder & Lead Developer — CodeSaas

Oct 2022 - Present

- Established consulting business, delivering 15+ SaaS products for 20+ startups, reaching 1M+ users and driving \$200K+ in new revenue.
- Engineered Neuron research platform with eight role-based permissions, reducing project turnaround time and increasing productivity 40%.
- Launched CreatorDash.in analytics and CodeDebug.tech AI SaaS MVP, achieving 85+ Lighthouse scores and onboarding 500+ creators.
- Reduced infrastructure spend by 25% and server latency by 60% via cloud-native microservices with Next.js, Bun, and LLM APIs.
- Led technical due diligence, advancing partner contracts by 50K+ and establishing mentoring and documentation best practices.

EDUCATION

B.Tech Computer Science & Engineering

June 2020 - July 2024

KIPM College of Engineering and Technology

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Software Engineering, Web Technologies, Machine Learning

ACHIEVEMENTS & CERTIFICATIONS

- Top-6 Finalist, Asia-Pacific Region — IIT-Bombay National Competition (2021-22)
- Top-20 Finalist — Web3 Innovation Hackathon; demonstrated blockchain and smart contract development expertise
- HacktoberFest 2023 Contributor — Open source contributions to 10+ repositories with 500+ lines of code merged
- TestDome JavaScript Certification (Gold Card) — [View Certificate](#)
- 20+ Hackathon Participations — Consistent track record of innovative solution development and team collaboration under time constraints
